Los Angeles	Local Highway	CULVER CITY	LAF5302								Culver City Adaptive Traffic Control System (ATCS) Project. This project is located in Culver City in the Westside subregion. It will upgrade the current Traffic Control System to an Adaptive Traffic Control System (ATCS). Project will replace 90 Type 170 controllers with Type 2070, add additional vehicle detectors at 102 locations, and upgrade communications equipment and connection to fiber-optic backbone. The ATCS will control 102 intersections throughout Culver City. Funds are requested for design and construction costs. Project sponsor will be required, upon completion of the project, to demonstrate congestion reduction and transit travel time reduction benefits. In addition, project sponsor will be required to credit to MTA, as cost savings in proportion to the MTA share of the total cost of this grant, any element of the work scope for this project that can utilize previously-installed signal infrastructure (interconnect, signal equipment, etc.).												2020
Los Angeles	Local Highway	SANTA CLARITA	LAF5303								It will deploy an adaptive traffic signal system on 12 corridors with 101 traffic signals: McBean Pkwy, Magic Mountain Pkwy, Wiley Canyon Rd, Orchard Village Rd, Lyons Av, Railroad Av, Newhall Av, Bouquet Cnyn Rd, Golden Valley Rd, Newhall Ranch Rd, Sierra Hwy, and Via Princessa.											2020
Los Angeles	Local Highway	GLENDALE	LAF5307								Glendale Sub-Regional Traffic Management Center Implementation. This project is located in the City of Glendale and will connect to the traffic signal network citywide. It will design and implement a subregional Traffic Management Center (TMC), located within the existing City of Glendale's TMC (GTMC), comprising a new video wall, computer servers, workstations, network and video equipment, data archive storage system, battery back up systems, and Commercial off the shelf (COTS) traffic signal control system. The new system will also be integrated with Metro's Regional Integration of ITS (RIITS) and the County Information Exchange Network (IEN) systems.												2018
Los Angeles	Local Highway	AZUSA	LAF5309								City of Azusa Traffic Management System. This project will upgrade traffic signals at 43 intersections in the City of Azusa. The project will fund the design and construction/implementation of controllers, wiring, detection, conduit, fiber optic, countdown pedestrian heads, signals, video detection, CCTV cameras and traffic control and monitoring upgrades at the 43 intersections.												2018
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5310								Ramona Boulevard/Badillo Street/Covina Boulevard TSSP/BSP. Implemention of a Traffic Signal Synchronization Project (TSSP) on Ramona Bl/Badillo St/Covina Bl from Santa Anita Av to the 57 Freeway. A Bus Signal Priority (BSP) project will be implemented on Ramona Bl/Badillo St from Tyler Av to Grand Av to give transit priority for Foothill Transit operations to improve run times with minimal impact on cross-street traffic.												2020
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5314								Gateway Cities Forum Traffic Signal Corridors Project - improve traffic signal operations by upgrading each traffic signal to federal and state standards, providing additional vehicle detection to enable operation as a fully traffic-actuated signal, installing the appropriate components to enable each signal to be capable of time-based coordination and retiming signals to improve the overall progression of traffic.												2020
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5315								San Gabriel Valley Forum Traffic Signal Corridors Project. This project includes 6 intersections at Myrtle Av/Peck Rd between Huntington Dr and Clark St and provides for system wide coordination, timing and operational improvements and traffic signal synchronization, equipment upgrades and intersection operational improvements. The original scope of this project was reduced by eliminating the Olympic Bl route which is being done as part of other projects.												2020
Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5316								South Bay Forum Traffic Signal Corridors Project - systemwide coordination, timing and operational improvements and traffic signal synchronization, equipment upgrades and intersection operational improvements in South Bay region. 25 signals system wide. Additionally, this project will install any warranted and feasible roadway improvements along the routes to improve overall progression												2020

* Represents the Plan network year for which the project was analyzed for the RTP/SCS modeling and regional emissions analysis

Los Angeles	Local Highway	LOS ANGELES COUNTY	LAF5115						40th Street West	57th Street	Avenue L Roadway Widening Project. This project will widen Avenue L from one lane to two lanes in each direction from 40th St West to 57th St, a distance of 1.7 miles. The roadway will be reconfigured to include left- and right-turn pockets where Avenue L intersects with 40th, 42nd, 45th, 50th and 55th Streets. The project includes curbs and gutters, a 12-foot wide Class II bike lane in each direction and 8-foot wide sidewalks on both sides of the street.												2018
Los Angeles	Local Highway	REDONDO BEACH	LAF5301						Aviation Blvd	Inglewood Avenue	Grant Avenue Signal Improvements. This project is located in Redondo Beach in the South Bay subregion on Grant Av between Inglewood Av and Aviation Bl. The project will upgrade six existing traffic signals. The project involves synchronization, bike detection, signal replacement, video detection, adaptive signal coordination, wireless connection and integration into the Redondo Beach Traffic Management Center (TMC). Funds are requested for design and construction costs. Project sponsor will be required, upon completion of the project, to demonstrate congestion reduction and transit travel time reduction benefits. In addition, project sponsor will be required to credit to MTA, as cost savings in proportion to the MTA share of the total cost of this grant, any element of the work scope for this project that can utilize previously-installed signal infrastructure (interconnect, signal equipment, etc.).												2020
Los Angeles	Local Highway	BURBANK	LAF5306						Glenoaks Ave.	SR-134	This project is located in the San Fernando Valley/North County subregion on Hollywood Way between San Fernando Bl and Olive Av, and on Buena Vista St between Glenoaks Bl and Riverside Dr. It will upgrade 20 signals on Hollywood Way and 18 on Buena Vista St., connect 38 signals to the fiber-optic cable-trunk line, and purchase fiber-optic modems. It will implement a demand-responsive traffic signal system along Hollywood Way and Buena Vista St. The project also includes license, system integration and testing of the Quick Track Adaptive Control Software.												2020
Los Angeles	Local Highway	HAWTHORNE	LAF5101						Hawthorne Blvd.	Crenshaw Blvd.	El Segundo Boulevard Improvement Project. This project is located in the City of Hawthorne and will improve El Segundo Bl at the intersections of Hawthorne Bl, Prairie Av, Doty Av, Cerise Av, and Chadron Av, a distance of 1.3 miles.											2018
Los Angeles	Local Highway	PASADENA	LAF5305						Hill Avenue	Sierra Madre Villa Avenue	Mobility Corridors - Rose Bowl Access Systems. This project is located in the City of Pasadena on these three corridors: Colorado Bl, Lincoln Bl and Orange Grove Bl. The number of intersections scheduled for upgrades and enhancements is 28. This project will implement the following improvements to all above-mentioned corridors and corresponding intersections: new 332-type traffic-signal cabinets, advanced Type 2070 traffic-signal controllers, implementation of new vehicular video-detection systems and advanced communication systems to allow for connectivity to the City's Transportation Management Center. Connectivity will be accomplished via fiber optics and all communication devices necessary to integrate the traffic signal controllers into the City's fiber-optic network will be designed for at each intersection.												2018
Los Angeles	Local Highway	SANTA CLARITA	LA0G754						Jakes Way	Soledad Canyon	Vista Canyon Road Bridge over the Santa Clara River and roadway from Vista Canyon Community (Jakes Way/Lost Canyon) to Soledad Canyon Road. Includes 750-foot long bridge, 1 lane in each direction, Class I bike lane.											2018

Riverside	Transit	SUNLINE TRANSIT AGENCY	3TR04C				0	Bus Rapid Transit	Coachella Valley		Implement Bus Rapid Service/BRT on Highway 111 based on recommendations in the Comprehensive Operational Analysis conducted in 2005/06. Project will entail completing feasibility study and working with the local jurisdiction on various activities prior to implementing project.									SunLine Transit Agency plans on conducting an alternative analysis study to select and finalize the potential corridor for BRT service.Hwy 111 is a conceptual plan - no detailed planning study has occurred yet. BRT study may start in 2013/2014.		2015
Riverside	Transit		3TR04A, 3TR04B				0	Bus Rapid Transit Infrastructure	Corona	Moreno Valley	Infrastructure to support the operation of BRT, including facility planning and engineering and retrofit of approximately 65 intersections for signal priority for transit and automated travel information at multiple bus stops.											2018
Riverside	Transit		3TL1507				0	Enhanced Commuter Link - East Corridor	Western Riverside County	San Diego, Orange, and Los Angeles Counties	Proposed commuter link service at the eastern side of I-215 corridor to San Diego and neighboring counties of Orange and Los Angeles through Metrolink service connections. The residents of Calimesa, Beaumont, Banning , Hemet/San Jacinto will be able to go to neighboring northern and eastern counties with the comfort and convenience of an express bus service.									Route No's 208, 210, 212, 216 are scheduled in such a way to meet other bus service connections, employer start/end work times, and/or commuter rail connections with Metrolink. As a result, an average headway or defined headway for the existing routes is not applicable as this is not the primary basis of the service design.		2012
Riverside	Transit		3TL1607				0	Enhanced Commuter Link - West Corridor	Western Riverside County	San Diego, Orange, and Los Angeles Counties	Proposed commuter link service at the western side of I-15 corridor to San Diego and neighboring counties of Orange and Los Angeles through Metrolink connections. A proposed expansion an improvement of the existing commuter service from Murrieta/Temecula including the Cities of Perris, Moreno Valley, Norco, and Corona.									Routes 79, 202, 204, 206, 217 are scheduled in such a way to meet other bus service connections, employer start/end work times, and/or commuter rail connections with Metrolink. As a result, an average headway or defined headway for the existing routes is not applicable as this is not the primary basis of the service design.		2012
Riverside	Transit	SUNLINE TRANSIT AGENCY	3TL907				0	Express/Commuter Bus Service	Coachella Valley	Riverside	Implement express bus service to connect commuters to Metrolink Service in Riverside, as well as express bus service along I-10. SunLine will purchase different size buses, including 45ft (MCI buses) for commuter service.									SunLine Transit Agency applied for and received JARC funds to implement commuter service from the Coachella Valley to the City of Banning. SunLine anticipates implementing the new route by January 2015.		2015
